GIST OF THE NEWS.

GLEAINED FROM OUR NEIGHBORS AND BOILED DOWN.

A Curious Case—Windmill Set Afire by Friction During the Recent Storm.

Springville correspondence Tribune, Dec. 10: Joseph Tuckett, a farmer living at Mapleton, had a narrow escape from being burned out Thursday night in a very strange manner. On his place he has a large windmill, which he uses to pump water from a well for irrigation purposes in the summer time. Thursday night a heavy wind prevailed, which broke the brake on the windmill and set it running at such a frightful speed, setting the framework on fire from the friction. Mr. Tuckett just discovered the fire in time to put it out before it could catch his barn and stacks, which were close by.

Robbery at Springville.

Springville correspondence Herald, Dec. 12: John Martin's tailor shop was entered by burglars yesterday afternoon and \$40 in gold and green backs was taken. The money was in a drawer of the bureau in a bedroom. A gold chain in the same drawer was left, which seems to indicate that the thief was familiar with the locality and did not have to search for the money. All the inmates of the house were absent at the time. Sheriff Storrs is over from Provo investigating. This is the second case of the sort here. George B. Matson, a farmer, losing \$130 under exactly the same circumstances the preceding Sunday.

The Rabbit Hunt.

Payson Globe-Header: The big rabbit hunt between Payson and Benjamin came off last Saturday, the Payson hunters winning by one rabbit and a fraction, computed according to the number of men on each side. Benjamin had ten men and Payson eight. When the bunnies were counted, after the hunt was over, Payson had forty-five and Benjamin fifty-four. The most unfortunate part of the hunt was occasioned by the entire crowd getting left by the train. The conductor told the hunters to be ready to return at 2:40 and he pulled through at 2:20, leaving them behind. A few managed by walking and riding, to get home, that night, some went to Eureka, and fourteen taxed the capacity of the Hotel de Morgan at Goshen and returned on the morning train.

Notice.

The ministers' meeting was held in the parlor of the Baptist church this morning, with all the pastors of the four churches—Congregational, Methodist, Lutheran and Baptist—present; also the deaconess of the Methodist church, Mrs. Kingsbury. A very pleasant hour and a half was spent listening to the analyses of the pastor's Sunday morning sermon. After some discussion, comments and planning of work, the meeting was adjourned to meet next Monday at Rev. J. E. Kirby's home.

FRIEDA A. DRESSER, Sec'y.
Provo, Dec. 12, 1898.

An Unpublished Letter from Shakespeare.

To the editor of THE UTAH COUNTY DEMOCRAT—Allow me to call your attention to the delinquent tax list, which has been published. In looking over it, and comparing with a party who has paid his tax for this year, I find in it some very gross errors and blunders; for instance, I call four cases with which I am somewhat acquainted, I will call them A, B, C and D.

A has two city lots, a house in which he and his family reside, a team of horses, wagon, cows and farming implements. His tax in full, city and county, was \$9.

B has two city lots, that is all he has, he is over 75 years old, has been ailing for some years back. Now at present he is unfit for work, and is quite sick, and has been for some time. He is taxed \$16.05.

C has a piece of ground 2 rods square on which his house stands, is sickly, works at times when able. He is taxed upwards of \$12. The county (Democratic) remitted, but the city council (non-partisan) wants the last mill.

C has a part of a lot without a fence, his house and all his furniture would not bring, at a sale, \$25. He is an old man, in the vicinity of ninety. He is taxed \$13.35. Brother Openshaw, when he was treasurer, told him to go home and never mind, the city council then (Democratic) did the same.

Another case has just come under my observation, that is a man with two lots, and two-story brick house; has paid \$40.

What a burlesque on justice! And the board of equalization(?) has passed upon these cases and said virtually they were correct! Shame on such procedure. The founder of Democracy has left on record "Exact Justice to All."

Woe unto you scribes, non-partisans,

hypocrites, who devour widows' and old feeble men's houses. But then you know the city council is non-partisan. I guess they resemble my play—The Merchant of Venice. Shylock wanted his pound of flesh, and we all know the result. Oh, consistency thou art a jewel. SHAKESPEARE.
P. S.—The pee-wee non-partisan sheet—the Enquirer—please copy, if the vice-president will allow it.
Provo, November 13, 1898.

Beet Sugar Experiments.

The following extract from the Country Gentleman, of Albany, New York, in regard to experiments in beet culture and the manufacture of beet sugar will doubtless be interesting to many of our readers:

Official reports from the experimental plants of the New York Department of Agriculture show the season to have been an unfavorable one generally, and that an unknown beetle destroyed many of the plants, so that reseeded in many cases was absolutely necessary. Good yields, however, are reported, and the experiments may be said to be a success so far as proving the adaptability of the New York soil for sugar beet growing, the real object of the experiments.

The new factory at Binghamton, now closing its first season, pays \$5 per ton for each ton of beets delivered to it. It also furnishes the seed to growers at about cost. About 1100 farmers were under contract to furnish beets this year and 12000 tons have been delivered. It is thought that between 15000 and 17000 tons will be converted into sugar before the close of the season, making the output of the factory 1500 to 1700 tons of sugar. The factory runs day and night, employs 10 men in two shifts of fifty, and is now producing fifteen tons of sugar daily.

The experiments of both the Rome and Binghamton factories show that it takes ten tons of beets to make one ton of sugar. Of New York State's beets, it is found that the percentage of saccharine matter in the beet is equal, if not far ahead of those raised in California and other Western States. It is believed that the farmer makes a profit of about \$5 per ton. Up to the time of harvesting, the expense per acre is \$11.17, not including cost of seed or fertilizer.

Utah Sorosis.

The Utah Sorosis met in the club room Wednesday afternoon with the president, Mrs. Allen, presiding.

Miss Lillie Gates read a very instructive paper on "Creek Religion," after which a recess was taken.

Eighteen members responded to roll call, giving quotations from the preceding paper, each being illustrative on the symbols of the ancient Gods.

Mrs. Wm. Beesley conducted parliamentary drill. This was followed by a general discussion of "How to Debate."

In the mothers' section Mrs. Craig gave an excellent talk on the "Religious Training of Children."

The above report of Sorosis was unavoidably omitted last issue.
